## THE BLÜTHNER **REBORN**

Restoring and reviving a classic Bluthner piano into a reworked piece of art, as part of our **REBORN** service.

Edelweiss Pianos worked alongside a Interior design team to create a art-case piano unique for the client and their interior style.

Accompanied with full restoration works and bespoke leg design.

**EDELWEISS PIANOS** BESPOKE PROJECTS

**LOCATION:** Private Island in the Middle East

**BRIEF:** Source and redesign a classic wooden piano to suit the clients interior. Requires a wood finish to allow for customisation. The piano must be of good quality, restoration may be required with a pleasing sound and fit the room dimensions comfortably.

**BUDGET:** Circa £80,000

**THE SOLUTION:** Edelweiss Pianos recommended our Reborn range for the clients budget. This is where a old piano is fully restored and then redesigned to work with a modern interior. Our team sourced a Blüthner Baby Grand which suited the space well on both size and sound. Once restored the hard wood case was hand carved in our Cambridge showroom with a unique pattern. The legs were also replaced to suit the design supplied by the interior designer to compliment the clients interior.

The piano was then polished and installed in the customers home by our dedicated team.

**TIME FRAME:** 10 months

## THE **EDELWEISS** PROMISE

When you purchase an Edelweiss Piano you enter a whole new world of musical art and entertainment. The unique blend of modern technology, exceptional piano craftsmanship, entertainment and design includes you in an ever growing family of piano lovers that purchase from our brand time and time again.

Edelweiss Pianos are reinventing the piano, for pianists, for art lovers, for collectors, for entertainers, and for everyone who enjoys music.
